

FOR IMMEDIATE RELEASE

## VMAC TO JOIN SUMMIT TRUCK BODIES AT THE WORLD OF CONCRETE SHOW, JANUARY 23-26

Nanaimo, BC, January 3, 2018 – VMAC will be joining Summit Truck Bodies at the World of Concrete Show January 23 – 26, in Las Vegas. The Summit Truck Bodies booth #C7127 will feature Summit's Ford F550 7 Series Service Trucks, one with a VMAC G30 Gas Engine Driven Air Compressor, and one with a VMAC Hydraulic Driven Air Compressor.

"We're looking forward to being at the World of Concrete Show this January in the Summit Truck Bodies booth," says Mike Pettigrew, VMAC's Marketing Manager. "Almost all fleet managers and truck upfitters struggle with the size and weight of truck-mounted equipment. VMAC designs the most compact, lightweight, and powerful mobile air compressors and multi-function power systems available. VMAC air compressors reduce the size and weight of equipment and power common pneumatic tools such as impact wrenches, jackhammers, pavement breakers, die grinders, and chipping hammers, making them the best solution for World of Concrete attendees."

On display will be the VMAC G30 Gas Engine Driven Air Compressor, the most affordable gas driven rotary screw air compressor available. It weighs just 205 lbs and produces up to 30 CFM at 100% duty cycle. The G30 is the best choice for customers who need the lightweight, compact performance of a rotary screw air compressor, at the lowest price possible.

VMAC's Hydraulic Driven Air Compressor will also be on display in the booth, on Summit Truck Bodies' Ford F550 service truck. The VMAC Hydraulic Driven Air Compressor features the most advanced digital control system available, weighs just 150 lbs, and produces up to 40 CFM at 100% duty cycle, making it the smartest, smallest, and most powerful hydraulic compressor available.

"The World of Concrete Show marks the start of VMAC's 2018 tradeshow season, which will also include ARA's The Rental Show in New Orleans in February, and NTEA's The Work Truck Show in Indianapolis in March," says Pettigrew. "World of Concrete attendees are invited to the Summit Truck Bodies booth where they'll be able to chat with representatives from both VMAC and Summit about work trucks and work truck equipment."

Visit VMAC at the World of Concrete Show, January 23-26, 2018, in the Summit Truck Bodies booth #C7217.

### About VMAC

VMAC Global Technology Inc. designs and manufactures the most compact and powerful mobile air compressors and multi-power systems available. VMAC (Vehicle Mounted Air Compressors) has earned a reputation for extraordinary build quality, durability and reliability in extreme conditions, among operators and fleet managers in the mobile mechanic, tire service, utilities, mining, oil and gas, and construction industries.

VMAC is an award-winning company, recently winning the BC Export Award for manufactured products. It is one of the only true air compressor manufacturers in North America, engineering and manufacturing air compressors and multi-power systems in British Columbia, Canada. Having complete quality control of the manufacturing process allows VMAC to confidently back their air compressors with a [VMAC Lifetime Warranty](#).

VMAC mobile air compressors and multi-power systems are sold through an extensive network of Dealers with locations throughout North America, United Kingdom, Europe, New Zealand, Australia, and the Middle East.
